Journey Programs

Journey Camp-in

Camp-in programs are offered to complete Journeys at a base rate of \$600 which holds up to 20 girls and 2 chaperones. Additional participants will be charged \$40 per Girl Scout/ \$15 per chaperone. These programs are intensive programs recommended for Juniors, Cadettes, and Seniors. They begin at 12pm on a Saturday and end at 12pm on the following Sunday. This program includes free Museum entry to all participants of the camp-in once your program is complete on Sunday afternoon.

2 Hour Journey Sessions

Single session programs are flexible programs designed to meet your troop's needs. You choose the session of a specific Journey that your girls are working to complete, and we create a unique program experience that meets the criteria of the session. These programs are offered at a base rate of \$100 per program, which holds up to 25 girls and 2 chaperones. Additional participants will be charged \$10 per girl/ \$5 per chaperone.

7 Hour Journey Sessions (9:00am- 5:00pm, with an hour lunch break)

These intensive programs are great for Scouts who wish to complete a full Journey without the overnight adventure. The fee for a day time Journey is \$350 which holds up to 15 girls and 3 adults. There is a \$20 fee for each additional Scout/ \$10 for each additional Adult (full group may not exceed 20 people). This program includes afternoon snack and program materials.

To schedule any Girl Scout program, fill out the online registration form on our Scout page.

Daisy Journeys

5 Flowers, 4 Stories, and 3 Cheers for Animals!

The Museum knows animals well! Your girls will get an up-close encounter with a live animal, learn about the care of different species, and create a fun item for one of our animals here! Getting outdoors, learning about animals, and making an animal mural will make you feel grrrrreat!

Welcome to the Daisy Flower Garden

As you start your garden girl journey let us help you grow along the way. We'll help your troop practice the Girl Scout promise and put your newly found green thumb to use. The museum has a variety of gardens including our 1880s farm garden, butterfly gardens, and rain gardens. Your troop can come out to learn about flowers and plants, critters that love the garden, and composting too! It's a green Girl Scout time!

Between Earth and Sky

How do you create a love for the outdoors? By experiencing it in a creative and dynamic way! We will explore texture, color, and shape using live animals, seeds, and sun. We will use role playing and poster-making to demonstrate what makes each daisy unique! Pick our site for your clover project!

Brownie Journeys

A World of Girls

We will play games from all over the world, look at exotic fabric, create and share skits/stories, create ads, taste foreign foods, look at worldwide scrap books, and more. Pick this journey and let the museum help you travel around the world!

Brownie Quest

We know how creative brownies are and would love to guide them on this journey! Play cooperative games, explore the “circles” in our lives, and brainstorm a project to help out our community! Discover, connect, and take action!

WOW! Wonders of Water

Wetlands, waves, weather, and more... there is a lot of fun in store! Learn all about water, and how valuable it is to all of us. Girls will also learn the importance of water conservation, and what they can do to help conserve it. Girls may explore our lakeshores, walk on a water obstacle course, and meet water dwelling creatures! Come and have a wonderful water time!

Junior Journeys

Get Moving!

Energy is the ability to do work. We need to put work in to reduce our energy cost as a global community. This journey challenges girls to think of ways to use their internal energy to make a big difference in the world. We will make recycled crafts, eat healthy snacks, analyze energy use at the museum, and brainstorm ideas for a master plan!

aMUSE

Every person has individual strengths, talents, and interests. For example some people enjoy painting, engineering, playing with technology, singing, cooking, working with animals, and more. Whatever your interest we would love for you to join the museum in celebrating inspiration and building leadership. Life is filled with laughs, adventure, triumphs, and setbacks all of which make for an excellent story. We will discuss ways to overcome stereotypes, explore beauty, and express ourselves. It will be an amusing time at the MUSEum!

Agent of Change

On this journey we will time travel to the 1800s to draw strength from the past. We will work as a team to take action in the present using topics the girls are passionate about. The museum is a positive place for girls to discuss heroines, draw their own super heroes, and brainstorm ways to create change!

Cadette Journeys

Amaze!

It's amazing what people can do when they work as a community. This journey pays special attention to our relationships with other people. We will explore the building blocks of friendship, while being outdoors, and using the museum stage for skits! We will learn to rise above peer pressure and form more positive connections.
